PROFESSIONAL EXPERIENCE

Software Engineer | Senior Frontend Developer

[slfstrg.com](#)

2024 - Present | Remote

- Built scalable, user-centric interfaces using modern JavaScript and Shopify tools, improving user engagement by 40%
- Developed and maintained frontend architecture with focus on performance optimization and responsive design
- Integrated and tested features with Jest and E2E automation frameworks including Cypress, reducing bug reports by 60%
- Collaborated cross-functionally in Agile teams to ensure high-quality deliverables and timely project completion
- Contributed to maintaining seamless CI/CD workflow for faster iteration and deployment processes
- Mentored 3 junior developers and contributed to comprehensive technical documentation
- Implemented responsive design principles and accessibility standards, achieving WCAG 2.1 AA compliance

Technologies: Shopify, React.js, TypeScript, Jest, Cypress, E2E Testing, CI/CD, JavaScript, HTML5, CSS3, Agile, Mentoring

Software Engineer | Frontend Developer

[Various Companies](#)

2021 - 2024 | Remote

- Developed and maintained 15+ web applications using React.js, Next.js, and TypeScript
- Created interactive dashboards with charts using Recharts and Chart.js, built data tables with React Table
- Managed application state with Redux and Zustand, integrated 20+ third-party APIs
- Utilized React Query for data caching and performed form management with Formik and React Hook Form
- Designed user interfaces using Tailwind CSS, Material UI, Chakra UI, Bootstrap, and PrimeReact
- Implemented real-time messaging functionalities using GetStream for 5+ applications
- Integrated CMS platforms including Sanity, WordPress, Directus, and Shopify for content management
- Implemented comprehensive testing strategies using Jest and Cypress, achieving 90%+ test coverage
- Worked in Agile teams and utilized project management tools like Trello, Jira, and ClickUp
- Familiar with backend development using PHP and Laravel for full-stack solutions

Kahunas.io - Chat Application

- Comprehensive chat application with GetStream integration for coaches to contact clients
- Features include audio/video recording, file attachments, emoji reactions, real-time messaging
- Enabled real-time communication for 1000+ users with 99.9% uptime

Technologies: React, GetStream, WebRTC, Socket.io, Node.js, Real-time Communication

Live Demo: [kahunas.io](#)

Website Dapp - Web3 Application

- Web3 application with MultiversX integration featuring QR code connectivity
- Blockchain transactions, decentralized functionality, and secure wallet integration
- Successfully processed 500+ blockchain transactions with zero security incidents

Technologies: React, Web3, MultiversX, TypeScript, Ethers.js, Blockchain

Live Demo: [website-dapp.vercel.app](#)

Nettyworth - DeFi Portfolio Tracker

- Advanced Web3 project featuring portfolio tracking, DeFi analytics, and comprehensive dashboard
- Real-time market data integration for cryptocurrency investments
- Tracked \$2M+ in portfolio value with real-time updates and analytics

Technologies: React, Next.js, Web3, Chart.js, TailwindCSS, DeFi
